**Phone No. 2**

*Frankie*

*Frank*

**Frankie** No. 6-6. A true sister Peach to the famous Frank that ripens from August 15 to September. This large, beautiful yellow freestone has all the qualities of Frank with one exception. Frank is a bit sweeter. Frankie is a heavy producer even during years of late frost and dry years. It has a color and flavor that sells; rich yellow with bright red, sun-kissed cheeks. Frankie and Frank make an ideal pair for home and commercial planting. R. B. Alexander, of Weatherford, Texas, said: "If I were a young man, I would plant 1000 acres of Frankie. It's a sure thing." Truckers who come to our orchards say: "Frankie is one of our best sellers and shippers." Stay with Wolfe for better, pure-strain, true-to-label fruit trees. Labeled with a BLUE stripe.

Prices:

2 to 4 ft. trees, 90c each; 4 to 6 ft. trees, \$1.30 each, prepaid.

**Frank** No. 6-4. The RECORD PRODUCER. Now 46 years without missing a crop at Mexia, Texas. A real frost-resistant Peach. Three-year-old Frank here at Stephenville, Texas, set a new production record with 10 bushels of large, firm, juicy, yellow, cling Peaches that ripened August 10. So sweet that it can be canned without sugar. This tasty Peach has a smooth, firm flesh that pleases the most exacting taste. Growers are making from \$300.00 to \$500.00 per acre—that proves MONEY DOES GROW ON TREES! Farm and Ranch Magazine says: "The most outstanding Peach produced in the Southwest." For the genuine Frank, get it at Wolfe's. Labeled with one WHITE stripe.

Prices:

2 to 4 ft. trees, 90c each; 4 to 6 ft. trees, \$1.30 each, prepaid.

There is no better than *Melba* the honey-hybrid Peach

No. 6-10. Melba is our greatest find in an all-purpose, large, delicious honey-hybrid Peach—adapted from coast to coast. Perfect freestone, ripening here June 5, and in the Rio Grande Valley 15 days earlier. Its flavor cannot be equaled. Good shipper. Before a variety can be listed in our catalog it must undergo severe orchard and experimental tests. We want hundreds of people to see it, eat it and give their honest opinion of its merits. We have introduced many new and outstanding varieties but never has a fruit variety received such unanimous acclaim as Melba. Not one person has failed to say: "That's the best Peach I have ever tasted." If you only planted one Peach, it should be Melba. Only limited quantities available, so place your order as soon as possible. Melba is labeled with TWO RED stripes.

Prices: 2 to 4 ft. trees, \$1.00 each; 4 to 6 ft. trees, \$1.50 each, prepaid.

# Three GREAT PEACHES

*Pure Strain-True to Label  
Varieties that Bear Young  
and Heavily!*

## No. 6-8 GIANT HALE

Freestone that ripens about July 15th. Can you imagine a Peach so huge that it will measure one foot in circumference and weigh near one pound? Some of Wolfe's Giant Hale Peaches are that big. It is a grand Champion in all the shows. The giant dark red Hale demands instant attention at all markets and sells like hot cakes at high prices. Be sure to plant another variety with Giant Hale for a pollinator. Halehaven, Texaberta, New Elberta and Elberta are good varieties to plant with Hale. Labeled YELLOW.

## No. 6-5 NEW GOLDEN JUBILEE

Yellow freestone that ripens about June 15th. The first yellow freestone to ripen. It is ready for market about five days before regular Jubilee and is a much better Peach. It doesn't have the soft tip like regular Golden Jubilee. It is similar to Texaberta in size, color, flavor and shipping qualities. This big, sweet, yellow freestone ripens just after Early Wheeler and is extra frost-resistant. The large delicious Peaches hang on the tree remarkably well after they are ripe and are very resistant to brown rot. A winner for either home or commercial planting NEW Golden Jubilee is labeled with 2 YELLOW stripes.

## No. 6-2 NEW ELBERTA

Is a yellow freestone, that ripens about June 20th. The first of its class to reach the market. Commercial growers and home orchardists have welcomed New Elberta as a precious gift to early harvesting. It frequently bears one year after planting and proves that "Money DOES Grow on Trees." Heavy bearing orchards of New Elberta are a beautiful sight of scarlet-red fruit. The meat is very fine and the seed is small. Wolfe's New Elberta usually bears when common varieties fail. For pure strain varieties that are paint labeled before they are dug, depend on Wolfe. Labeled with one PINK stripe.

**NEW  
ELBERTA**

# Indian Chief Peach

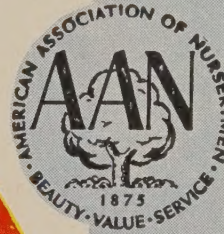

Three Fill a Half-Gallon Jar

**Stay With Wolfe and Grow Peaches That REALLY MAKE A HANDFUL**

A cling that ripens about July 20th. Can you imagine an Indian Peach so large that three will fill a half-gallon jar. Some so large that they won't even go in a half-gallon jar. We offer a handsome reward for a better and bigger Indian Cling Peach than ours. Mrs. Wolfe says it is the finest pickling Peach in the land. A 24-year-old tree here in Stephenville is still bearing the finest red-fleshed, red-skinned Peaches I have ever seen. Our buds are taken from proven orchard bearing trees and paint labeled so that we can absolutely guarantee pure-strain, true-to-label varieties. Indian Chief is labeled ORANGE.

Indian Chief

## Frost-Resistant Peaches

We specialize in Frost-Resistant Peach varieties. A Peach tree without a crop is a dead expense. Look at the record of Frank, Frankie, Texaberta, Melba, Jubilee, New Elberta, and our special Elberta. A CROP EVERY YEAR. They bloom late in the season and bloom over a long period of time. One Wolfe heavy bearing tree is worth ten that lose two and three crops out of five.

### No. 6-9 HALEHAVEN

Freestone that ripens June 25th. Cross between South Haven and J. H. Hale. Large, beautifully colored, yellow fleshed Peach. Splendid shipper. Heavy producer and brings top prices. It is one of the finest canning Peaches grown. Every Peach is a big handful of delicious, tempting goodness. It colors long before ripe and is perfectly self-fertile, extremely hardy, prolific and a good pollinator for other Peaches. Label—two BLUE stripes.

# Tree Ripe Peaches Quick

for Your Table from Wolfe Trees

## No. 6-11 ELBERTA

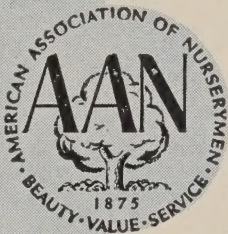

Would you believe that there are over 100 different kinds of Elbertas being sold by nurseries? Very few have the original pure-strain that gained world-wide fame for its size, color, flavor and bearing habits. We have taken great care to see that the buds we use come from proven, heavy bearing orchard trees and that they are paint labeled in the field to insure true-to-name variety. Our true ELBERTA, a huge yellow freestone, ripens about July 10. We own and maintain a Proven Bearing Orchard for bud-wood supply and you are cordially invited to visit us during the bearing season. We'll feed you all the tree-ripe Peaches you can eat. Elberta is labeled GREEN.

paid for only ... **\$1.50**

Offer No. 0-4

Elberta

Early Wheeler

## No. 6-7 EARLY WHEELER

Should be planted in every home orchard. It starts ripening the last days of May and lasts about ten days. It is a large semi-cling that has very juicy flesh and makes delicious Peach cobbler pie. During real wet springs the seeds will crack but because of its huge size and production it makes a grand Peach for home and commercial planting. It is a beautifully colored Peach that has proved worthy of a place on our list of varieties. Early Wheeler is labeled with two WHITE stripes. Same price as Elberta.

See this bowl of sliced, Tree-Ripe Peaches! Do you know how much better Tree-Ripe Peaches are than those you get in the grocery store? Well, don't wait. Pick a spot—doesn't have to be a big one—and plant a few fruit trees now. Before you know it, Wolfe trees will be delivering big, delicious, Tree-Ripe fruit right off the tree. Never put off until tomorrow something you can do today.

# Texaberta

## The Nation's Perfect Peach

**No. 6-3.** A perfect FREESTONE that ripens about July 10th. This outstanding Peach has not missed a crop at Belton, Texas, since it was originated 22 years ago. Combine the best qualities of all Peaches, add a few and you have Texaberta. It is really a Peach of a Peach. **FROST-RESISTANT.** It has bright red, juicy flesh around the small seed; forming into deep tender yellow toward the tough thin skin. Delicious! Well, you just don't know what good eating is until you have had the juice of a Texaberta running down your chin after a big bite. It produces in mild climates where Elberta is a failure, bears very young and is an excellent shipper. Commands top prices at all markets. We have been very careful to preserve the pure strain in our bearing orchard. Sold only by Wolfe. Labeled with a RED stripe.

SEE YOUNG BEARING TREE ON PAGE 34.

### PRICES—PREPAID

2 to 4 ft. size, \$1.00 each      4 to 6 ft. size, \$1.50 each

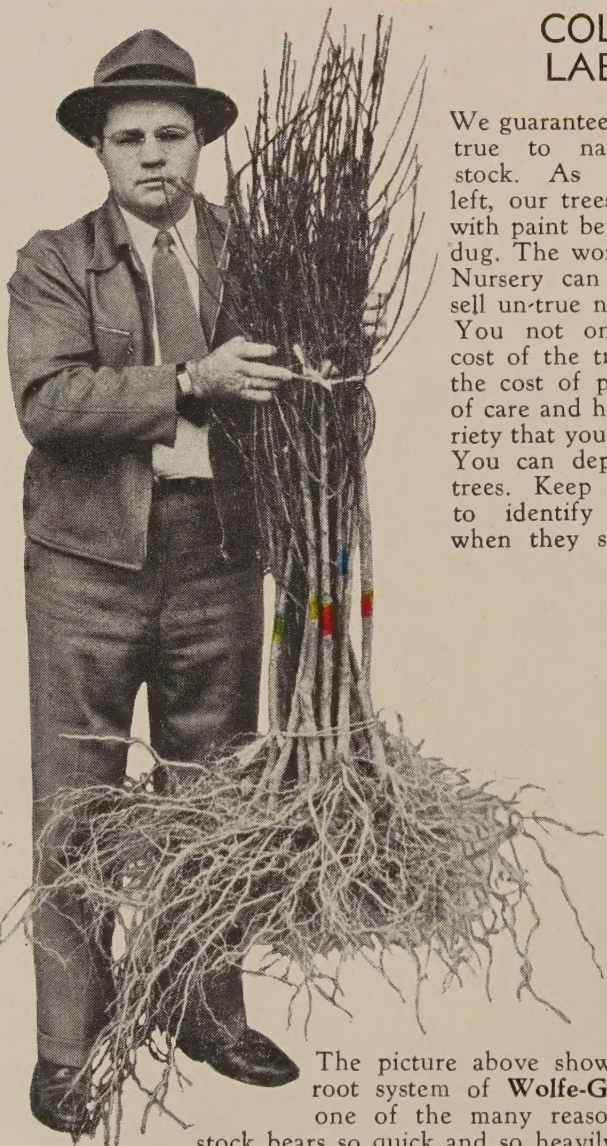

### TEXABERTA OFFER

**3** Heavy rooted, one-year-old, 1 to 2 ft. size trees, prepaid to your door for **\$1.60** only .....

Offer No. 0-1

### COLOR LABEL

We guarantee Pure-Strain, true to name nursery stock. As pictured at left, our trees are labeled with paint before they are dug. The worst mistake a Nursery can make is to sell un-true nursery stock. You not only lose the cost of the tree, you lose the cost of planting, cost of care and have some variety that you didn't want. You can depend on our trees. Keep this catalog to identify your trees when they start bearing.

### Heavy Root System

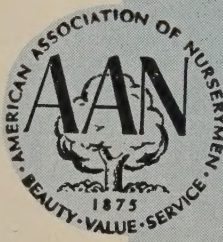

The picture above shows the heavy root system of Wolfe-Grown Trees, one of the many reasons why our stock bears so quick and so heavily. Our trees are dug with heavy machinery so none of the branch roots are lost. This year, we are digging Pecans and Walnuts with big machinery. Even using expensive digging equipment, our prices are lower than most nurseries and the quality of stock can't be matched.

## Planting Distances

Give Plants Enough Room

Kind	Distance	No. Trees Per Acre
Apples	30 or 40 ft.	48 and 27 trees
Pears	30 or 40 ft.	48 and 27 trees
Pecans	40, 50 or 60 ft.	35, 16 and 12 trees
Peaches	25 to 30 ft.	69 and 48 trees
Plum	20 to 25 ft.	108 and 69 trees
Cherry	20 to 25 ft.	108 and 69 trees
Figs	15 to 20 ft.	194 and 108 trees
Grapes	10 to 15 ft.	435 and 194 vines

## Complete HOME ORCHARD

Have fresh tree-ripe Peaches from May to September to eat, can, and give to your friends. This special offer of 8 trees is selected from our best varieties that are adapted to your section: Melba, Frank, Frankie, Texaberta, New Elberta, Halehaven, Elberta, Early Wheeler, Giant Hale, Indian and Golden Jubilee.

# Delicious Apricats for HOME USE

A MUST FOR EVERY  
HOME ORCHARD

## No. 2-3 MOORPARK

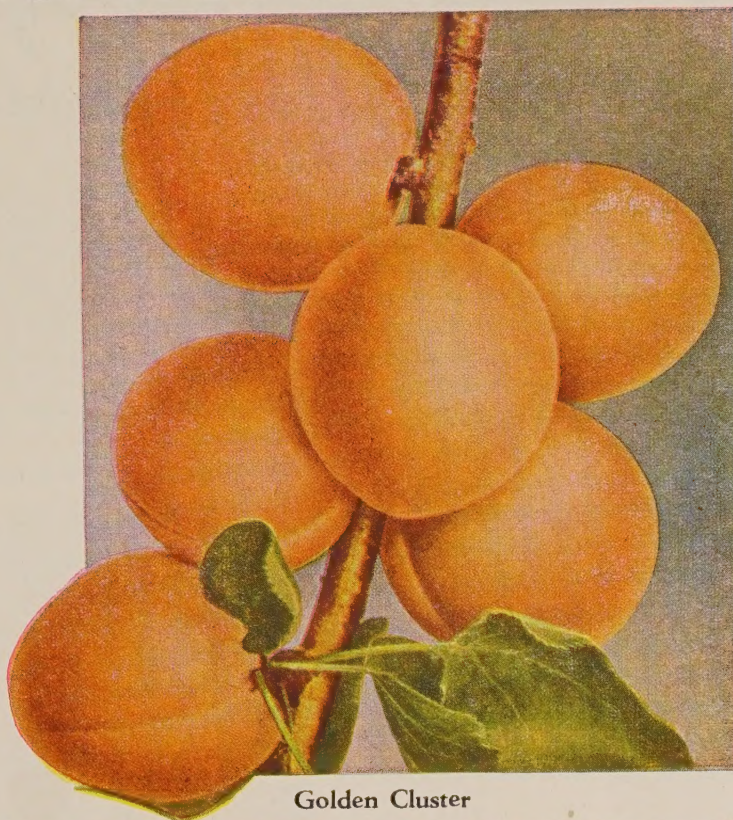

The most popular commercial Apricot grown and adapted to most all sections. It is a rather large Apricot with tender, sweet orange flesh. It separates easily from the small seed and is a grand variety for eating fresh, canning or drying. Hangs on the tree remarkably well. Spray your trees to prevent injurious insects and disease. Moorpark is labeled with a GREEN stripe over a BLUE.

## No. 2-2 GOLDEN CLUSTER

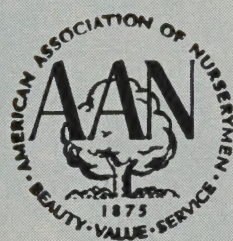

A medium to small prolific Apricot with a smooth light orange-yellow skin. The delicious yellow flesh is firm but juicy. Not dry like some common varieties of Apricots. Apricots should be cultivated very shallow as the feeder roots are close to the surface. Golden Cluster is labeled with a GREEN stripe over a WHITE stripe.

### PRICES OF MOORPARK AND GOLDEN CLUSTER

2 to 4 ft. trees, \$1.00 each      4 to 6 ft. trees, \$1.50 each

Order Offer No. 0-9

Moorpark—Heavy Producer

## No. 2-1 PERFECTION

The largest, most delicious eating Apricot grown. It is perfection for an Apricot. The huge fruit is fuzzless and the thin, tough skin makes it resistant to brown rot. It blooms late in the spring, which puts it in the Frost-Resistant class, and ripens early. Bears young, too. We got several big Perfection Apricots off of a 2-year tree in the nursery row. It colors just before ripening with a soft red fading into orange and light yellow. The tender, tasty flesh ripens early and, just like some coffee, it is good to the last bite. The tree is not attractive and somewhat a crooked grower. It is very hard to propagate. We have to stake train every tree in the nursery row. You won't like the looks of the tree but you'll love the fruit. Perfection is labeled GREEN over RED.

### PRICES OF PERFECTION

2 to 4 ft. trees, \$1.50 each      4 to 6 ft. trees, \$2.00 each

## No. 10-5 JOHN GARNER PECAN

Plant your pennies and watch your dollars grow. Garner starts growing dollars in a hurry. We have fruited this great Pecan alongside of many others during a period of 16 years and it has made more money per tree than any other. We have never been able to supply the demand. Garner will bear at least one-third more per tree than other Pecans and produces nuts the first or second year after you plant them. WHY? Because Garner just naturally bears young. Add this desirable trait to Wolfe's "Machine-dug" root system that reduces "TRANSPLANT SHOCK"—the use of FRUIT BUDS in propagation and you have the answer to why people prefer Wolfe's Garner Pecan trees. Garner is FROST-RESISTANT—bears every year and is one of the first to mature in the fall. It is a TRUE paper-shell—so thin it can be cracked with the fingers. The creamy, delicious kernels are extremely rich in oils, proteins, carbohydrates, vitamins and distinctive flavor. Plant in uplands of sections only at altitudes of 600 feet and UP. Garner is one of the most outstanding Western varieties ever discovered. Should be planted with Mahan for best results. Order your trees early. Get the benefit of early rains. Garner is labeled RED.

### PREPAID PRICES OF JOHN GARNER

2 to 3 ft. size tees  
3 to 5 ft. size trees

\$2.95 each

## **No. 10-6 GIANT MAHAN**

Can you imagine Pecans so large that the clusters of nuts look like bananas on the trees? That's Mahan—THE WORLD'S LARGEST PECAN. The nuts look somewhat like Schley but they are more than twice as large. Mahan is also a true brittle paper-shell and brings more money per pound than any other Pecan. This variety has become increasingly popular due to the healthy, vigorous growing tree which makes a beautiful shade specimen. It grows upright and puts on dense, dark green foliage. The leaves are extremely large. Added to this feature, it is adapted to all sections and is resistant to common diseases. Mahan is a heavy producer and our Machine-Dug root system enables them to start bearing soon after you plant them. Mahan and Garner make an ideal pair for home or commercial planting. Mahan is labeled with one WHITE stripe.

STAMP OF QUALITY

Over 1,000 Pounds of Pecans from This  
Tree Growing at Stephenville, Texas

*Money DOES Grow on Trees!*

# WE PAY COST of SHIPPING

For your convenience and saving of both time and money we prepay everything listed in this catalog—regardless of where you live. We ship **Mail, Express or Motor Freight**; selecting the one that serves you the best. Please allow a week or ten days for delivery during January and February.

## Money-Back Guarantee

Our guarantee is simple. First, you must be completely satisfied when our stock reaches you. If it does not reach you in perfect condition, it still belongs to Wolfe Nursery and costs you nothing. If the stock reaches you in live, growing condition, then, you are responsible for the care. Any request for adjustment must be made within 10 days after delivery. Our trees are true-to-label. Double your money back if not. Keep your original order. Stay with Wolfe for pure-strain, true-to-label stock that bears young.

## True-to-Name Stock

Now, more than ever, you can depend on Wolfe Nursery for pure-strain, true-to-label varieties. We bud from our own proven bearing orchards—double-label the buds as they go to the nursery fields—and double-label each variety in the field with metal and paint labels. Before the trees are dug and handled, each one is labeled with one or more color paint stripes about 6 or 8 inches from the ground. Only seven colors are used to label all our stock—RED, WHITE, BLUE, GREEN, YELLOW, PINK and ORANGE. Notice—we have first letter of color labels after the name varieties listed on the enclosed simplified order sheet. For example: Holland Apple—O-R—the

O-R means that Holland is labeled ORANGE over RED. Frank Peach—W—Frank is labeled with one WHITE stripe. Your original order sheet will be returned in a water-proof envelope attached to the bundle of nursery stock. Use it or the catalog to identify each variety.

## How to Order

Use our simplified order sheet. The name of everything

in this catalog is listed on the order sheet as follows—name, color, label, size, price each—all you have to write is the quantity and total price. Carry the total of each column to Special Offers where you write TOTAL. Use our self-addressed return envelope—it saves time in handling your order. If we are unable to ship all your order when it is received, the items left out will be marked S. L., which means that it will be SHIPPED LATER.

## Federal and State Approved Nursery Stock

Our nursery stock is carefully inspected twice by both Federal and State inspectors before being certified. In addition to these four inspections, we inspect when digging, as it is graded, as it goes through the processing department and when your order is filled. Your trees will have been inspected at least seven or eight times before they are shipped. When you buy from Wolfe Nursery, you get stock that is free of disease and graded by American Nursery Standards. Caliper shall govern. Grading by height represents average of most varieties. Heavy caliper trees are most desirable.

## Tell Your Neighbor

Our best salesmen are satisfied customers. If you like our stock, please tell your friends or neighbors. We print only a small quantity of catalogs and will greatly appreciate your lending or giving your copy to someone needing good nursery stock. We will make it up to you with extra service. Thanks!

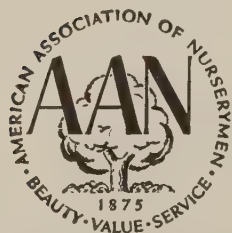

## Free Planting Guide

Regardless of the size of your order, you receive a Free Planting Guide. Our aim is to help you get the best possible results from our stock. Follow the simple advice of our guide to better results and you will be one of many who say, "Wolfe Nursery really proves that Money DOES Grow on Trees." Your planting guide will be sent in a water-proof envelope with your order attached to the outside of the bundle.

# World's Largest Tree Digger

Pictured at left is the World's largest tree digger in action. This digger is

powered with a 126 horse-power crawler tractor that goes down after **WHOLE-ROOT SYSTEM**. Sixteen men take part in the digging operation to pull the trees, grade, haul to storage and store in the shortest possible time. Wolfe Pecan and Walnut trees hardly know they have been moved. Every tree you get from Wolfe Nursery will live and get a head start if planted properly and cared for. Our Pecan and Walnut trees need not be pruned since they have sufficient root system to care for top growth.

Cane poles thrash profit from this demonstration Pecan orchard at Wolfe Nursery every year. Plant one or a thousand Pecan trees—it is the best investment you can make. Plant both early and late pollen shedding varieties for bigger yields. Early pollen shedders are: Garner, Western Schley, Stuart. Late pollen shedders: Burkett, Success and Mahan.

### Plant Your Pennies and Watch Your Dollars Grow

Pecans are an investment that will pay big dividends the rest of your life, no matter how many trees you plant. A small investment in a Pecan grove will make money for you and for generations to come. Put Pecans in the proper soil and they immediately double the value of your land. Let us help you in selecting soil and varieties. Pecan trees will send your children and grand-children through school, pay the taxes on your place and give you plenty for good all-winter feasting. Plant Pecan trees at least 40x40 ft. in commercial plantings. That requires 27 trees per acre. 50 x 50 requires 16 trees per acre. We recommend planting 60 x 60 or 12 trees per acre. This allows inter-cropping or planting fruit trees in the middle until the Pecan trees reach heavy production. By planting 60 x 60 ft. you can plant 36 fruit trees which makes a combination orchard 30 x 30 ft.

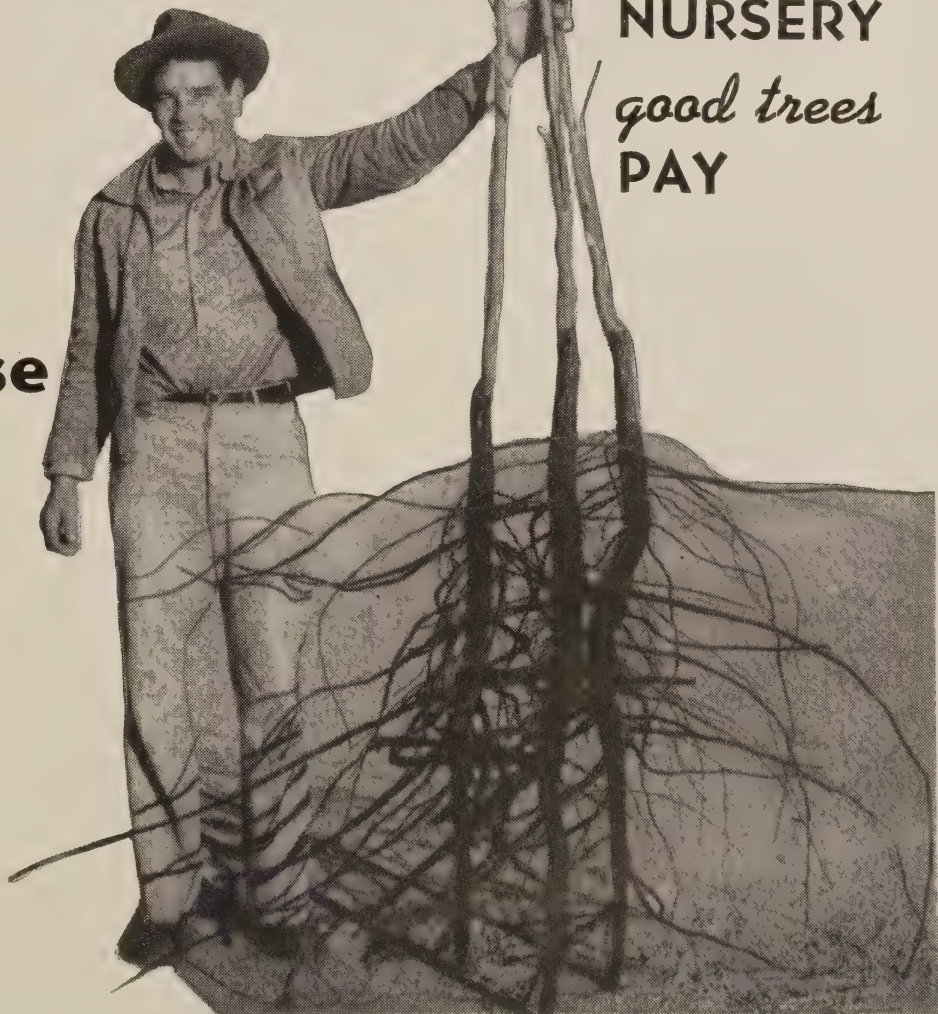

#### HOW TO PLANT PECAN TREES

When your trees arrive, soak the roots in water for about one hour. Dig holes about 38 inches deep and 30 inches in diameter. Place the tree in the center of the hole and work good top soil around all the roots. Use plenty of water to pack the soil and get rid of air pockets. Tree should be planted about the same depth as it grew in the nursery. Wrap the trunk with heavy paper or burlap to prevent sun scald the first year.

## Digs Roots like These

### *Wolfe Grown Trees LIVE!*

You have gained nothing by planting a tree. It must live, make rapid growth and start early, heavy production to make your investment worth while. Isn't it reasonable to expect trees like those pictured at right to be far superior to hand-dug trees? We know it. We used to dig our Pecan trees by hand and the trees don't even compare with machine-dug trees. Sure! We spent a lot of time and money to accomplish MACHINE-DUG trees, but we have something to be proud of and trees that will pay off for our good customers. In short, we can now give you more for less money. Stay with Wolfe Nursery for superior nursery stock. Wolfe Nursery will STAY WITH YOU.

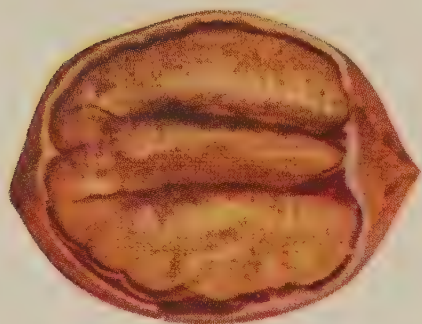

# Money DOES Grow on Trees!

*Ask the  
People who  
buy from  
WOLFE  
NURSERY

# BURKETT *It turns pennies to dollars*

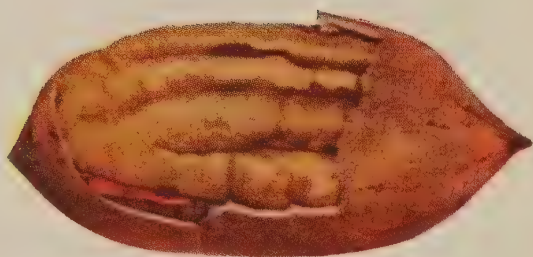

Burkett

## No 10-1 BURKETT

The leader and will continue to be in Western varieties. It is a regular and heavy producer of large, round, fat Pecans that bring top market prices. As long as we have been in business, the market demand for Burkett and Garner have never been supplied. Its flavor cannot be equalled. Plant Western Schley, and Garner, with Burkett for perfect pollination. Plant only in altitudes of 600 feet and up and on well-drained land. Burkett is labeled with one BLUE stripe.

### PRICES—PREPAID

2 to 3 ft. size trees	\$2.40 each
3 to 5 ft. size trees	4.10 each
5 to 7 ft. bearing size	6.40 each

Western Schley

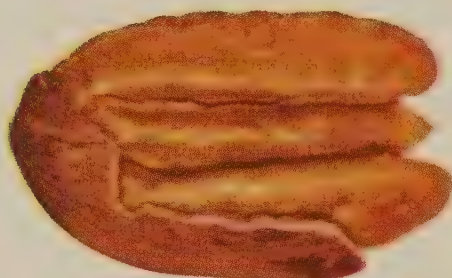

## *Wolfe's* GOLD MEDAL PECANS

### No. 10-2 WESTERN SCHLEY

The perfect cracker in the large Pecan class. It never fails to prove that "Money DOES Grow on Trees." The tree is remarkably healthy, a strong grower, early and heavy producer. Western Schley is a genuine Risien Gold Medal Pecan, and, remember—they bear young, even in the nursery row. Resistant to scab and rosette. Labeled with a GREEN stripe.

### PRICES—PREPAID

2 to 3 ft. size trees	\$2.40 each
3 to 5 ft. size trees	4.10 each
5 to 7 ft. bearing size	6.40 each

Stuart

### No. 10-4 STUART PECAN

Stuart comes nearer to being well adapted to all sections of the country and all soils than any other variety. It is an excellent producer and a hardy, fast growing, healthy tree. The meat has a real Pecan flavor and the shell is medium thick—somewhat brittle. The average Stuart will run 48 to 50 per cent kernel. As you can see by the actual color picture at left, the Pecan is large and always well-filled. The trees bear regularly and are highly resistant to scab. Stuart is labeled YELLOW.

### PRICES—PREPAID

2 to 3 ft. size trees	\$2.40 each
3 to 5 ft. size trees	4.10 each
5 to 7 ft. bearing size	6.40 each

Success

### No. 10-3 SUCCESS PECAN

This most popular Eastern variety is in demand because of its excellent flavor, large, plump, smooth, creamy kernels that release perfectly from the thin soft shell. Forty of the big nuts usually make a pound and it tests high in meat content. The tree is a beautiful, vigorous grower and highly resistant to scab. It heads low and makes an ideal variety for yard planting. Success ripens a few days later than Stuart. Both are very polliniferous. DON'T FORGET Wolfe's MACHINE DUG ROOT SYSTEM makes the difference. Success is labeled with one PINK stripe.

### PRICES—PREPAID

2 to 3 ft. size trees	\$2.40 each
3 to 5 ft. size trees	4.10 each
5 to 7 ft. bearing size	6.40 each

*Money DOES Grow on Trees*

# WOLFE'S PAPER-SHELL PECANS

*Delicious Eating and a Handsome Income for the Rest  
of Your Life — Plant Now for Independence*

ONE PECAN TREE LIKE THIS WILL PAY the taxes on your home. Picture this young Burkett above standing by your home. Next fall you could gather over one hundred pounds of high priced Pecans right out of your yard. The Pecan is our STATE tree and none other could be more fitting. Pecans mean security and add beauty to your home plus unexcelled cool shade for those hot summer days. Be penny-wise—plant your pennies and watch your dollars grow. Wolfe Nursery has grown because we have helped others grow.

# *The* **MEN BEHIND WOLFE NURSERY**

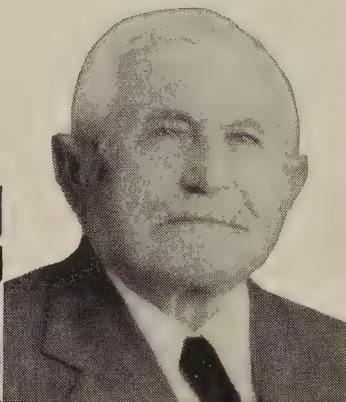

## **ROSS R. WOLFE**

Ross R. Wolfe founded Wolfe Nursery in 1920 and devoted his life to the selection and breeding of better fruit and nut varieties. Pioneer in soil building and diversified farming, paying orchard practices and civic improvements. Served as President of Texas Nurserymen, Pecan Growers, Fruit Growers, Chamber of Commerce, Lions Club, and Director of American Association of Nurserymen. His high standards and business ethics are known by the thousands who have continued to be loyal customers. I, Hugh Wolfe, and every member of Wolfe Nursery, pledge strict adherence to the policies and standards of Ross Wolfe. Better nursery stock at reasonable prices, personal attention to your needs, and prompt, friendly service will be our bid for your patronage.

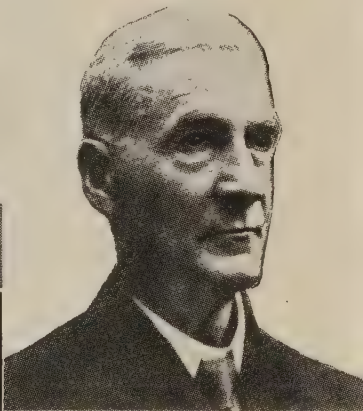

## **E. E. RISIEN**

E. E. Risien received the Gold Medal for his outstanding contribution to horticulture. This grand old man gave many new and valuable varieties to the Pecan world, such as Garner and Western Schley. By Mr. Risien's request, Wolfe Nursery is continuing his breeding work for bigger and better Pecans. Our first successful new cross was harvested two years ago, but it will have to be thoroughly tested before we offer it for sale.

## **J. W. STUBENRAUCH**

Famous breeder of Frost-Resistant Peach varieties. Frank and Frankie are two of several outstanding creations that have set production records. By his request, Wolfe Nursery is continuing his breeding work in Peaches.

## **T. V. MUNSON**

World famous for creation of over 100 new Grape varieties. Carman is the leader. Received many medals from France and other countries. We purchased the famous Munson vineyards to preserve his many varieties and continue his work.

No business is any better than the men behind it. The works of Ross Wolfe, E. E. Risien, J. W. Stubenrauch and T. V. Munson will always live in their contribution to a more beautiful and fruitful world. The sun never sets on trees grown by Wolfe Nursery.

## *Follow The Cars to* **WOLFE NURSERY** *for Quality*

Pictured below is a front view of our modern indoor sales and display room. Our Mail Order Department is on the second floor. Storage, packing and shipping departments are on the first floor. Our own Post Office and Express Office are on the other side of the main packing department. Tourists from every state have visited the **HOUSE THAT TIME BUILT**, made of petrified wood and rare fossils from all over the world. This is now our reception room. Follow the cars to Wolfe Nursery—one mile due west of Stephenville—for an interesting and profitable trip. Visitors always welcome!

# World's Heaviest Producer ~

## Thomas Black Walnut

**No. 11-1.** This Jumbo, thin shell Black Walnut will grow and bear anywhere. The actual size photographs at the bottom of this page show what big kernels you get and, are they good! Pick bushels of these big, delicious Walnuts from your own trees and store them for those cold winter days for eating fresh or making tasty candies. Thomas Black starts bearing the first year in our nursery rows. It is a fast grower and will make a beautiful, valuable shade for your home. Some trees are now producing from 20 to 30 bushels of giant Walnuts that sell for fancy prices. Labeled with 2 RED stripes.

Note the young 6 to 8 ft. Thomas Black tree at right that was photographed in our nursery row. This 3-year-old tree was loaded with over thirty big Walnuts that look as big as baseballs. Our supply has never met the demand. Self-fertile.

American Fruit Growers Magazine gives Thomas Black first place over all Walnuts.

The New York State College of Agriculture reports that Thomas Black has been by far the most successful variety.

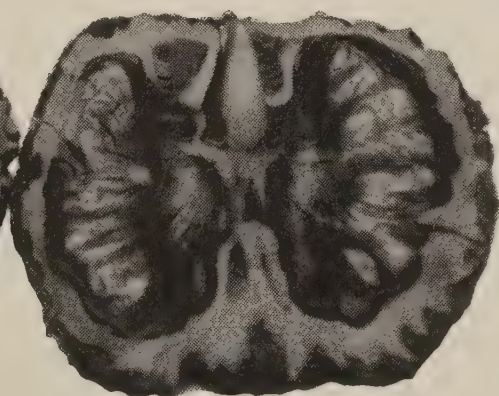

### Machine Dug Root-System

We are now digging Walnut and Pecan trees with heavy machinery in order that our customers may get whole-root systems. Big crawler tractors pull a mechanical digger that lifts the heavy root-system out without cutting or damage. Good root-system for early, heavy production.

### PRICES ON THOMAS BLACK

2 to 3 ft. trees	\$2.00 each

No. 1-1

# Holland Apple!

RIPE JULY 15th

Mother Nature must have decided to combine all the best qualities of Apples into one when Holland was originated. When I first saw this grand Apple at Weatherford, Texas, I knew it was the Apple that Texas and the great Southwest needed. For many years Holland has proven to be a consistent, heavy producer of huge, dark, strawberry-red, smooth, firm, juicy fleshed Apples. Its delightful flavor more than pleases the most exacting taste.

Being a native Texan, Holland is especially adapted to our climate and soils, but has proved outstanding wherever Apples are grown.

It is a good packer and shipper. I have had them to last over thirty days on my desk. It ripens about July 20th and is on the market before outside Apples are shipped in. It hangs on the tree exceedingly well, giving the commercial grower a long period for harvesting—DOES NOT need a long period for selling.

Named best of fall Apples at Experiment Station, Blacksburg, Virginia.

The Wonder Apple for Texas and the South  
BEST APPLE AT CHICAGO WORLD'S FAIR

## SELF-FERTILE

Holland makes the perfect Apple for home planting. It is self-fertile and will bear every year. Bears very young—second and third year yields good crops. Six-year-old trees have produced over five bushels that sold for \$4.00 per bushel. Twenty dollars per tree is proof that "Money DOES grow on trees." Labeled ORANGE over RED.

### Holland Prices

2 to 4 ft. trees, \$1.50 ea.

# Wolfe's **APPLES** that Produce Heavy Crops in the South

Every home orchard should contain Apple trees, and the four outstanding varieties that we offer will grow most anywhere in the United States. We do not recommend Apples for the Gulf Coast area and Rio Grande Valley, but other areas can grow Apples successfully. Apple trees like deep, rich soil that is well drained. Commercial orchards should be check planted, either 25 or 30 feet apart. Spacing of 25 x 25 feet requires 69 trees per acre, and 30 x 30 feet requires 48 trees per acre. For home orchard plantings, the trees can be spaced as close as 20 feet apart.

## No. 1-7 **DOUBLE RED DELICIOUS**

The old King of red eating Apples that is grown from coast to coast with equal success. By thinning the fruit properly, Double Red will develop into a huge size. Our pure-strain Double Red bears loads of big, sweet, firm Apples, that are a treat to enjoy. Trees you receive from Wolfe Nursery are budded from our own bearing orchards. Store-bought Apples are picked before they are ripe and don't compare with those picked from your own trees. Double Red Delicious is NOT self-fertile and MUST be planted with either Holland, Golden Delicious or King David. Double Red is labeled ORANGE over BLUE.

### PRICES—PREPAID

2 to 4 ft. size	\$0.90 each
4 to 6 ft. size	1.30 each

## No. 1-2 **GOLDEN DELICIOUS**

By far the outstanding Apple in its class. Self-fertile and an excellent pollinator in the home or commercial orchard. Golden Delicious is a mild, juicy, sweet, crisp, white fleshed Apple with new-gold skin that has a distinctive flavor all its own. It is a richly fragrant and appetizing Apple that belongs in every home planting. Like Holland, Golden Delicious is adapted to a wide territory and bears very young. Golden Delicious is labeled with an ORANGE stripe over a WHITE stripe.

### PRICES—PREPAID

2 to 4 ft. size	\$0.90 each
4 to 6 ft. size	1.30 each

## No. 1-3 **KING DAVID**

An August Apple that will yield from \$200.00 to \$300.00 per acre. One orchard at Baird, Texas, has produced as much as \$500.00 worth of King David Apples per acre. It also proves that "Money DOES grow on trees." KING DAVID is a medium size, firm, bright red Apple with a tart acid flavor, somewhat similar to the old Winesap—juicy. Very prolific producer and healthy grower. Perfect for Apple pies, cobbler, Apple jelly, jams and Apple butter. The All-Purpose Apple that is one of the best pollinators. Labeled ORANGE over YELLOW.

### PRICES—PREPAID

2 to 4 ft. size	\$0.90 each
4 to 6 ft. size	1.30 each

# Figs the First Year

You can have fresh, big, soft, sweet Figs the first year from Wolfe Everbearing Figs. Easy to plant and easy to grow. I wish you could spread some of the delicious Fig preserves that Mrs. Wolfe makes, on a hot biscuit, with a little butter, and then take a big bite. Good! So good that you'd plant three or four Figs in your back yard. Figs the first year.

4 1-yr. Figs—Postpaid, Only \$2.00  
Order No. 0-12

## No. 4-1 WOLFE'S EVERBEARING FIG (Ramsey) ✓

It bears the first year and ripens big, delicious Figs from July until frost. Bears on new growth. As the actual color picture shows, it is a beautiful Fig and very sweet. \$400.00 an acre was made on this Fig at Dallas, Texas. Labeled PINK over WHITE.

## No. 4-2 MAGNOLIA FIG

A large, brownish-straw colored Fig that also bears the first year. You can't go wrong planting these two outstanding Figs. Magnolia is labeled PINK over BLUE.

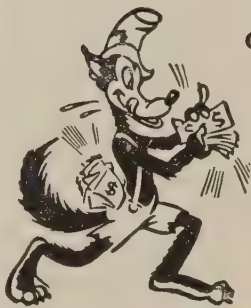

### Prices of FIGS—Prepaid

Wolfe's Everbearing Fig

# Wolfe Outstanding Douglas Pear

I PLANTED WOLFE  
GROWN PEAR TREES

Douglas  
Pear

## THE SUGAR PEAR THAT BEARS VERY YOUNG

Ever stop to think that the root system of a tree could make any difference in its bearing age, healthy growth, amount of fruit per tree, or the length of its useful life? There is a lot of difference! We use Calleryana Pear understock (root system) which is a native of Northern China. They are a tiny Pear about the size of your thumb. We have tested Calleryana alongside other rootstocks for several years and find it to be superior in every respect. In addition to growing a better, heavier producing tree, Calleryana causes a Pear tree to produce at least two years earlier. Pear trees grown on common understock usually start bearing at 5 or 6 years old. You want the best, we want to sell only the best; that's the reason Wolfe Nursery has gone to so much trouble and expense to secure Calleryana. It is resistant to all known root diseases. Sorry looking root system but the very best. They live—produce!

## No. 7-4 DOUGLAS PEAR

There are bigger Pears but none will bear as early as Douglas. It ripens about August 15th and is the youngest and heaviest bearing variety that we have to offer. 2- and 3-year-old trees are often loaded with beautiful, yellow Douglas Pears. It is blight-resistant and is fast taking the lead as a commercial variety. A few acres of Douglas will put that ringing noise in your pocket. Write for special commercial prices in lots of fifty. Douglas is budded on Calleryana rootstock and you can rest assured that it will be a money maker. Pear trees can be grown 10 feet apart in home orchards but should be planted 20 or more feet apart in commercial orchards. Douglas is labeled with a PINK stripe over a YELLOW stripe.

### Prices of DOUGLAS PEAR—Prepaid

2 to 4 ft. size trees	\$1.10 each
4 to 6 ft. size trees	1.60 each
5 to 7 ft. bearing size, heavily branched	2.90 each

# Wolfe's Pears

for  
Eating—Canning—Preserving  
Winter Storage and Profits

## No. 7-3 GARBER PEAR

Eat 'em juicy-ripe right off the tree. This beautiful colored and well shaped Pear, is suited for just about every need. It is a heavy producer that is a good shipper, good for wrap storage, eating, preserving and a money maker on the commercial market. It ripens in August when good eating Pears are in demand. Garber is labeled PINK over BLUE.

## No. 7-2 BARTLETT PEAR

Ripens the latter part of July or first of August. A very large eating and canning Pear. The clear yellow fruit with a pink sun-kissed cheek has a smooth, white, juicy flesh, and is extra sweet. The trees are vigorous and productive. Plant only in arid to semi-arid sections. Remember, Wolfe Pears are grown on Calleryana root-system. Bartlett is labeled PINK over WHITE.

## No. 7-1 KIEFFER PEAR

A variety adapted to all sections—including sections where Bartlett is a failure. It is a sure bet for heavy, consistent crops of large, white fleshed Pears. It is a golden, yellow Pear that is an extra good cooker and ideal for winter storage. It will keep for a longer time and gets very sweet and mellow after about a month. Kieffer is labeled PINK over RED.

## No. 7-5 LE CONTE PEAR

A medium sized, bell shaped Pear with creamy white flesh, covered with a greenish-yellow tough skin and red cheeks. It is a very good eating and cooking Pear that ripens as early as the middle of July. Remember—the root system makes the tree. Le Conte is labeled PINK over GREEN.

### Prepaid Prices of GARBER, BARTLETT, KIEFFER and LE CONTE

# Money **DOES** Grow on Trees

## *Allred Plum*

### **Beautiful to See—Delicious to Eat**

No. 9-4 This most unusual Plum is another of Wolfe's new varieties resulting from a never ending search for new and finer fruits. Allred looks like a big dark-red Cherry and bears showers of sweet, juicy, red meated Plums all over the long limbs. I know of no other fruit that offers such beautiful blossoms in the spring, outstanding red foliage all through the growing season and so much delicious eating. You should see visitors here at the nursery when we take them to the Allred orchard. One man ate so much that I expected to see red juice run out of his ears any minute. He said the Allred Plum was too good to be true. The leaves are RED. The stem and branches are RED. The fruit is RED outside and inside and the tiny seed is RED. Allred is all red. Labeled with a BLUE stripe over a WHITE stripe.

Allred Tree—All Red

# Wolfe's Plums

for  
Eating Fresh—Jellies—Plum Butter  
Jams—Canning and Market Profit

## No. 9-2 BURBANK PLUM

One of the finest eating Plums that ripens about June 25th. It is a large, purplish-red Plum with deep yellow, delicious flesh. A very prolific variety that was created by, and named for, a great man. Burbank is an excellent commercial Plum, and sells in the fancy fruit class. It is labeled with a BLUE stripe over a GREEN stripe.

## No. 9-3 MUNSON PLUM

When I first tasted this outstanding Plum, I said it was as sweet as honey, and as yellow as new gold. It is one of the heaviest, earliest producers that I have ever found. Delicious to eat and makes the most beautiful, clear yellow jelly you have ever seen. It should be included in every home orchard planting. Munson is labeled BLUE over YELLOW.

## No. 9-1 BRUCE PLUM

The best large red Plum grown in the South. The tree is very healthy, bears very young and produces loads of Plums nearly as large as a hen egg. It ripens early in June, and growers report getting \$8.00 per bushel on the New York market. Other varieties of Plums must be planted with Bruce for pollination. It is the only variety on our list that is not self-fertile. In commercial plantings, we recommend planting one pollinator to 20 Bruce. Bruce is labeled BLUE over RED.

## No. 9-5 SAPA PLUM-CHERRY

A home orchard would not be complete without at least one Sapa Plum tree. Ripens the last of June and is a tremendous producer. It is medium in size, and has rich, dark, purplish-red flesh. High sugar content makes it the very best jelly Plum. The heaviest bearing Plum we have. Good pollinator. Labeled BLUE over PINK.

# Better Grapes

For Eating Fresh, Juices, Jams,  
Jellies, Wine and Profits

## No. 5-4 THOMPSON SEEDLESS

Is that Grape that you rush to the grocery store to buy before they are all gone. Now that's a lot of trouble, and the cost of a few bunches at the store will buy enough vines to produce all the sweet, delicious Thompson Seedless Grapes that you can use. Yes, and some for your neighbor too. A few bunches of this grand Grape will make a mighty friendly neighbor. Plant some of our select Grapes—say at least one of each variety, in your back yard, on the fence or even in the landscape planting. Always room for the garden of Eden fruit. Thompson Seedless is adapted to arid and semi-arid sections where the nights are cool and soil is well drained. Are Peaches included in your order? Don't overlook a good bet. Thompson Seedless is labeled YELLOW.

Thompson  
Seedless  
Sweet and  
Juicy good

## No 5-2 NIAGARA

The Grape with a distinctive flavor and worthy of a place in your planting. This hardy prolific Grape is another of our selections from a long list of good varieties. It is a vigorous grower that produces an abundance of light green to white compact bunches. Don't leave Niagara out of your planting if you want a Grape with a delicious tang. Niagara is labeled WHITE.

## No. 5-3 CONCORD

This large, juicy, sweet, tender fleshed Grape ripens in August when everyone is hungry for a handful of good eating. The clear skinned, purplish-black Concord bears heavy crops the second or third year after planting and the strong, healthy vines produce for many years. Did you read about Holland Apple on page 16? Concord is labeled BLUE.

## No. 5-5 DELAWARE

There has probably been a greater acreage planted in Delaware than any other red Grape. This beautiful, compact variety has juicy, sweet flesh of the finest quality for both table and wine use. It is adapted to a wide area and considered one of the heavy production varieties. It is a good commercial Grape and your home orchard will not be complete without Delaware. Labeled ORANGE.

### PRICES—PREPAID

# Carman

## THE ALL PURPOSE GRAPE

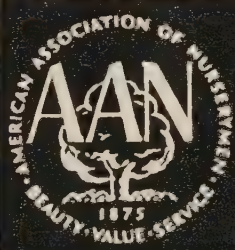

Bears Second Year

No. 5-1 Is one of the sweetest Grapes grown. We put up hundreds of gallons from our vineyard at Comanche, Texas, and, when serving it to friends, they would ask where we got the sugar. Carman makes large, compact bunches of Grapes and is a very heavy producer. It is a regular bearer of firm, glossy black Grapes that melt in your mouth. It is adaptable to most any section and ideal for home or commercial planting. Carman is one of the famous Munson Grapes that combine the best quality of several varieties. It is **mildew-resistant** and is seldom attacked by leaf folder. We gave away about forty thousand vines to customers last year so they might see just how good Carman really is. Carman is labeled with a RED stripe.

### Prices on Carman

3-year, heavy, bearing size	\$0.80 each
2-year, large	.60 each

PREPAID

# Strawberries

## EASY TO GROW

Pick a small spot around your home and have some fun and mighty good eating from a patch of fresh, red ripe Strawberries. In the flower bed where pansies grew—in a barrel, or along the fence line, anywhere—shade or sun.

## HEALTHY PLANTS

Your crop depends upon the plant you start with. Our Strawberry plants are carefully dug so as to get all the roots, and carefully packed in Northern Moss to reach you in perfect planting condition. Pinch off most all the green leaves to force quick new growth when planted. Stay with Wolfe for better stock.

No. 14-2

No. 14-3

## IMPROVED KLONDYKE

Imp.  
Klondyke

The perfect Strawberry for home or market. The berries are uniform in shape and size, beautiful dark red color with a distinctive, mild, delicious flavor. A strong productive berry that sells for fancy prices. Plants make quick growth; are tall, compact, strong and healthy. Strawberries can be planted from November to April 15th.

### All Four Varieties of Strawberries PRICES—PREPAID

25 plants, \$1.25	100 plants, \$ 3.00
50 plants, 2.00	500 plants, 12.00

## Gem Everbearing

This giant Strawberry is fast becoming the most popular everbearing variety. Almost every place Strawberries are grown, Gem is proving a grand success. The large, firm, bright red berries are of very high quality. They are even better than this picture, and what a flavor—nothing like a heaping bowl of delicious Strawberries for breakfast, or eating fresh out of your garden, in the evening after work. Gem will start bearing 60 to 80 days after planting, and will produce lots of good eating until frost. Prices, prepaid: 25 for \$1.25; 50 for \$2.00; 100 for \$3.00; 500 for \$12.00.

[24]

## *Texas Ranger*

### DROUTH RESISTANT

No. 14-4

The new Strawberry for southern states. It produces 25 per cent greater crops than most varieties and is a better shipper. Being **drouth-resistant** and a vigorous grower, it succeeds where other Strawberries are a failure. The big, sweet, tangy flavored berries have a tender, smooth flesh and are so good that they melt right in your mouth. Dr. S. H. Yarnell of Texas A. & M. College says: "Texas Ranger Strawberry proved by experimental tests, and commercial growers, to excel both Missionary and Klondyke. Texas Ranger for Texas."

No. 14-1

### BLAKEMORE STRAWBERRY

Picture a big bowl of bright red Blakemore Strawberries sprinkled with powdered sugar. Now, pour some whipped cream on top and serve with ice cream and cookies. If you don't have Strawberries growing around your home, you are missing part of the fun of life. If you think "store bought" Strawberries are good, just try some that are ripened on the plant. What a difference! There are twice as many acres planted in Blakemore as any other variety. Strong, vigorous grower that stands more abuse and neglect than the average variety.

## *Rossberry*

### **No. 13-6 ROSSBERRY**

HAS EVERYTHING and promises to be the sensation of quick-freezing. It is huge in size, and has the unusual combined flavor of Raspberry, Loganberry and the sweet Blackberry. It fruits the first year after planting and withstands cold and drouth. It actually likes dry weather. Remarkably free of the usual diseases. Small, soft seeds are very few. Now growing in over sixty Federal and State Experiment Stations. First berry to ripen and a very heavy producer. 600 gallons per acre. Grows on a trellis and very easy to pick. See picture above. When you pick a Rossberry, you really have a mouth full. The greatest berry I have ever found. As told by the original grower, Rossberry was created by Luther Burbank and went undiscovered for many years.

### COMBINED FLAVOR OF Raspberry, Blackberry, Loganberry

Ed Girard says: "I have spent my life growing berries and Rossberry is by far the best of all."

Clint Boyd with three acres, says: "Rossberries are superior to any other berry I have ever grown."

"I have ten acres of Rossberries in bearing and I have never grown a bigger money maker."—J. B. Smith.

"Much better than Boysenberry."—Pate Martindale.

#### Prices of ROSSBERRY—Prepaid

5 for \$1.60	10 for \$3.00	25 for \$5.00	50 for \$9.00
100 for \$15.00			500 for \$60.00

## Thornless Boysenberry

No. 13-4. Is a huge maroon-red-purple berry that often measures 1½ to 2 inches long. It bears in large, loose clusters and is a grand berry for home and market use. The juicy, tangy, sweet, sub-acid flavor makes it ideal for eating fresh, canning, for pies, jams, jellies and juices. It is absolutely thornless. It is adapted to a wide range of soils and climatic conditions and thrives on backyard fences. Plant 6 feet apart for all the delicious berries you can eat. Planted 8 feet by 8 feet, 680 plants will set an acre. Boysenberry is **frost-resistant** and **disease-resistant**. It is sweet and juicy, yet amply firm to withstand shipping. Our supply of berries and plants has never met the demand. Order early.

### PRICES—PREPAID

10 for \$1.50    25 for \$3.50    100 for \$13.00    500 for \$55.00

Rosberries as they grow. Easy to pick and a real money maker. Put that idle land to work and profit from \$300.00 to \$400.00 per acre. Plant 8 feet by 8 feet. 680 per acre.

## Wolfe's Wonder Dew-Blackberry

### No. 13-1 DEW-BLACK

A wonderful cross between the old delicious Dewberry and the tasty, sweet Blackberry. There is not a more delicious fruit grown than Wolfe's DEW-BLACK. Pick these big, tempting berries from your own garden and eat them fresh with cream and a little sugar, in pies, shortcakes, for sauces, jams and DEW-BLACK jelly. Easy to grow and hardy most anywhere. They stand and handle like Blackberry. DEW-BLACK is drouth-resistant and frost-resistant and will produce a crop every year.

We harvest from 1500 to 2000 gallons per acre. We have shipped DEW-BLACK berries to 44 states and everyone reports that it is a most outstanding berry. Plant them 3 to 4 feet apart and in 6 foot rows. Ripens through May and June.

Early Richmond Cherry

Montmorency Cherry

Hansen Bush Cherry  
Beautiful Blossoms and Fruit

## *Wolfe Bush* **CHERRY**

### **No. 3-1 WOLFE BUSH CHERRY**

A beautiful dark red Cherry that is excellent for pies, jams and jellies. It bears every year and is an abundant producer. Ripens about August 1st, and will fruit the second year after planting. It's a new variety for the Southern States that should be planted by every home owner. Beautiful shrub for landscaping. Labeled with a WHITE stripe over RED.

PRICE: 1-year bush, 75c each.

### **No. 3-2 HANSEN BUSH CHERRY**

An early Cherry that ripens about June 1st, and is a sure, heavy bearer. It bears the first year after planting and will bear every year. Plant a row of these Bush Cherries in your yard or mix them in with your flowering shrubs. The limbs are covered with gorgeous white blossoms followed with a shower of beautiful Cherries. Will bear in sections where other Cherries fail. Labeled WHITE over BLUE.

PRICE: 2-year bushes, \$1.00 each.

### **No. 3-3 MONTMORENCY CHERRY**

Large, bright red, delicious Cherry with firm flesh. It is acclaimed America's greatest canning Cherry. The tree is hardy and disease resistant and affected less by wet weather than other Cherries. It is a young, sure bearer. Plant only in altitudes of 600 feet and up or in sections having cold winters. Labeled WHITE over GREEN.

### **No. 3-4 EARLY RICHMOND CHERRY**

The leading early sour Cherry of the nation. The fruit is bright red, juicy and excellent for pies and Cherry jam. Ripens about June 15th. The tree is a strong, healthy grower, and produces very young. Plant only in altitudes of 600 feet and up or in sections having cold winters. Labeled WHITE over YELLOW.

Prices—Prepaid

# A DISH FIT FOR A KING

The most beautiful tree and fruit grown. Picture a tree with large, green, waxy leaves like a Magnolia just covered with large, orange-red Persimmons that make a dish fit for a king. The leaves turn all shades of beautiful colors during autumn and after they fall you really have a show of big fruit. We have never been able to grow enough trees to supply the demand. Persimmons will grow from the Gulf Coast and as far North as Cotton.

## Persimmons

**No. 8-2 EUREKA.** A very hardy variety with a most delicious flavor. Sometimes seedless. Big red fruit literally covers the trees and hangs until soft ripe. Picture above shows a young tree in our nursery producing fully mature Eureka Persimmons. Our system of using fruit-buds cause Wolfe-grown trees to produce young and heavy. When served with a few drops of lemon juice, sugar and thick cream, Eureka is a dish fit for a king. Eureka is labeled YELLOW over WHITE.

**No. 8-1 TANE NASHI.** A long, bright orange Jap Persimmon, that is seedless. Finest quality to be had. We have picked Tane Nashi when snow covered the ground. What a beautiful sight! Persimmons with a white snow background. It is **frost-resistant** and widely adapted. Deliciously flavored. Plant trees 20 feet apart. Tane Nashi is labeled YELLOW over RED.

**No. 8-3 NEW WRINKLE.** A new Wolfe introduction. We tested this grand new variety several years to make certain that it met all our standards before it was offered to our customers. New Wrinkle is a cross between Eureka and Tamopan, and is the first Jap strain developed in America and offered to the public. It is larger than Eureka and so square that it looks to have grown in a box. The quality and taste are superior. Labeled YELLOW over BLUE.

# Cushion

Cushion Mums will be shipped separately from the rest of your order and at the proper time for planting. Our Mum plants are started in the greenhouse the latter part of February and are usually ready to ship around the first of April. This, of course, depends upon the weather. When your Mums arrive, soak the roots in water for about thirty minutes and plant late in the evening. Be sure to water the soil well around the roots and keep protected if the sun is too hot. You will be surprised at the grand show our Cushion Mums make in the fall.

M-4 Rare Yellow Cushion

## Riot of Colors and Entrancing Beauty

Yes, thousands of lovely, colorful Mums to brighten your home from early fall until frost. These new hardy Cushion Mums are ideal for vacant spots, borders, and special garden plantings. Grow about 2 feet tall and from 2 to 3 feet wide. Easy to plant—easy to grow. Bushels of gorgeous blooms. Thousands of people stopped to see our field of Cushion Mums this fall. Blossoms! Blossoms! Everywhere! Unless you have seen these gorgeous dwarf Mums, you cannot realize their beauty. Plant Cushion Mums for showy borders, in flower beds, mix with the landscape and for special garden arrangements. They are excellent for rock gardens and outdoor living room border. They make a lovely deep green globe plant and begin blooming the latter part of August. All the blossoms seem to pop at once—just over night. No plant can give you more color for the money. Order early. Our supply is limited.

M-5 Glowing Bronze Cushion

#### **BERCKMANN'S GOLDEN**

**No. 15-7 BERCKMANN'S GOLDEN ARBOR-VITAE.** A dwarfish, compact, globular Arbor-Vitae with light green foliage, tipped with bright gold in spring. Grows 6 feet tall. Use a background for unusual "color scheme." Price, prepaid: 1 to 2 ft. size, \$1.20 each.

#### **ITALIAN CYPRESS—Tall**

**No. 15-8 ITALIAN CYPRESS.** A tall, graceful, slender Evergreen with dark green foliage. Need not be sheared—grows 20 feet tall, but can be kept to desired height by pruning top. Use with Pfitzer Junipers to build up tall lines on the corners of your home. Price, prepaid: 1 to 2 ft. size, 90c each.

#### **BAKER'S PYRAMIDAL**

**No. 15-6 BAKER'S PYRAMIDAL ARBOR-VITAE.** A beautiful dark Evergreen that will furnish a special green for your foundation planting. Can be sheared, will grow from 8 to 12 feet tall. Price, prepaid: 1 to 2 ft. size, 90c each.

#### **QUEEN'S WREATH**

**No. 15-5 QUEEN'S WREATH.** A lovely slender vine that produces racemes of dainty, pink flowers in a grape-like cluster. Blooms from mid-summer until late frost. Price, prepaid: 2-yr. vines, 40c each.

#### **YELLOW JASMINE**

**No. 15-4 YELLOW JASMINE.** We have selected this variety out of several Jasmynes. Its long, slender branches arch and hang to the ground. The foliage is a bright, tender green that is covered with gorgeous, little, yellow flowers all summer. Price, prepaid: 1 to 2 ft., 60c each.

#### **PHOTINIA**

**No. 15-3 PHOTINIA.** The colorful broad-leaf Evergreen that produces an abundance of rich yellow, fragrant flowers in the spring. I wish we had a color picture so you could see Photinia as it looks in full growth and bloom. The foliage has an autumn appearance the year round. Price, prepaid: 1 to 2 ft., 90c each.

## **EVERGREENS** *for Year around Beauty*

Pfitzer Juniper

**No. 15-9 PFITZER JUNIPER.** Most handsome and useful Evergreen for the landscape. This popular spreading Juniper has beautiful silver-green, weeping branches and works in nicely with Italian Cypress, Bonita, or as a fill for borders and walk planting. Reaches a spread of 4 to 6 feet and can be pruned to desired shape. **Price, prepaid: 9 to 12 in. plants, 90c each.**

**No. 15-11 WAX LEAF LIGUSTRUM.** One of the finest broad-leaf Evergreens grown in the South. This aristocrat of the Evergreen family has showy, thick, waxy leaves that are dark green on top and light green on the under side. Can be pruned to any shape, for specimen plants, or beautiful informal hedge. **Price, prepaid: 1 to 2 ft. size, 90c each.**

**No. 15-1 EUONYMUS JAPONICA.** A waxy, glossy leaved specimen of the Broad-Leaf Evergreen family. An all-purpose plant that may be pruned to any shape, or that will cling close to the wall. Ideal for planting behind flowering shrubs and will make a lovely hedge. **Price, prepaid: 1 to 2 ft. size, 40c each.**

**No. 15-2 NANDINA.** The unusual Evergreen that changes color with the season. Bright green in the summer, turning to vivid shades of fire-red in the winter. Covered with clusters of scarlet-red berries all winter. Grows 3 to 5 feet tall. Can be pruned to desired height. Use under windows and mix with other greens for year round beauty. **Prices, prepaid: 8 to 12 in. size, 60c each; 1 to 2 ft. size, 90c each.**

**No. 15-10 BONITA ARBOR-VITAE.** Bonita is a dwarf medium Evergreen that grows round as a ball. No trimming necessary. Grows 3 to 4 feet tall and just as broad. **Price, prepaid: 1 to 2 ft. size, \$1.20 each.**

Wax Leaf Ligustrum

Euonymus Japonica

Bonita Arbor-Vitae

Nandina

## The Sun Never Sets on Wolfe Grown Trees

We feel honored that Governments from all over the world order from our nursery. Our trees have traveled by boat, plane, rail and even ox-cart to remote peoples who search for new and finer varieties of nursery stock. We don't want to serve the whole world—we want to serve our home folks—Texas and neighboring states. Home is where we can serve best.

### Texaberta

Pictured at right is a young Texaberta tree loaded with more than fifty big mature Peaches. This picture was made one year after the tree was left in the nursery row. You can tell how large the Peaches are by the hat in the lower left corner. Plant Peach trees in your back yard and keep them pruned to six feet high for plenty of extra big Peaches.

Drive to the nursery as thousands do and save. One mile west of Stephenville, Texas

### Wolfe Trees LIVE

Pictured at left is proof that Wolfe-grown trees will live and grow. This picture shows the remarkable growth that you get from our machine-dug root system. It pays to plant good trees with a heavy root system—that are pure-strain, true-to-label and Federal and State inspected. Depend on Wolfe Nursery when selecting nursery stock.

### Wolfe Trees PRODUCE

Pictured at left is a record bearing Frank tree. Ten bushels of big, sweet Frank Peaches have already been gathered and more yet to be picked. There is a difference in nursery stock. Letters from customers telling that our trees bear younger and heavier prove it pays to start right with better trees. The varieties listed in our catalog have proven in performance and planting them will give far more value than the small difference in the cost of "cheap" nursery stock.

### Prompt Friendly Service

In our modern indoor Sales and Display Room you will find a complete line of balled landscaping specimens at money saving prices. Our experienced service men help you select the best for your planting needs. Every modern convenience is provided for your comfort and pleasure. Eat in our Lunch Room and visit our Reception Office—THE HOUSE THAT TIME BUILT, constructed of petrified wood and fossils gathered from all over the world. A picture of this unique building appeared in Ripley's—"Believe It or Not." Visitors always WELCOME.

# PLANT WOLFE'S ASPARAGUS and RHUBARB FOR BETTER EATING

Asparagus, Washington

No. 0-21

## MARTHA WASHINGTON ASPARAGUS PLANTS

Introduced by the U. S. Department of Agriculture a few years ago. Has been the main-crop Asparagus variety for home, market, and canning. Produces large, tender, green tips. Famous for its mild, rich, full flavor.

A few roots produce many tips. Plant them 12 inches apart in the garden. In the field, the rows can be 4 feet apart. 5,000 roots will plant an acre. Price: Per dozen plants, \$1.00, postpaid.

No. 0-22

## VICTORIA RHUBARB

The first plant to furnish fresh sauce for pies in springtime. Will last a lifetime. Will provide lots of juicy stalks after the first year. Plant 2 feet apart. Set the roots straight up and down, with the crown about 2 inches below the surface of the soil. Price: Per dozen plants, \$1.50, postpaid.

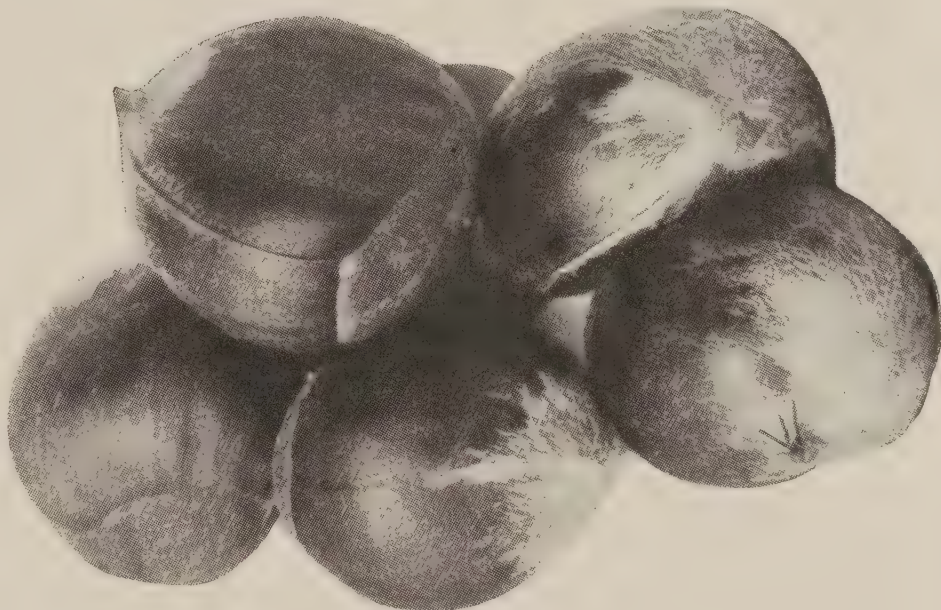

Victoria Rhubarb

## Chinese Chestnut

### This New Variety Brings Chestnut Territory to the South

No. 11-3. Imagine eating big, plump, brown, butter-sweet Chestnuts from your own trees before the real flavor has dried out. This new seedling Chestnut is not affected by blight and will furnish you with lots of mighty good eating during the winter months.

They make a beautiful, round, spreading tree for the back yard and will grow from 18 to 24 feet tall. Now, you can have Chestnuts with this new variety. Ornamental, healthy and vigorous. This new tree brings Chestnut territory all the way to the Gulf. Labeled PINK over PINK.

Prices, prepaid:

2-year-old trees \$2.00 each

## MAIL YOUR ORDER

*Wolfe Nursery*

### As Near As Your Mail Box

Yes, Wolfe Nursery is as close as your nearest mail box. By mail you can sit in the privacy of your own home and select the finest fruit trees, nut trees, roses and flowering shrubs. When you order from Wolfe Nursery, you can order with confidence. Use our convenient order sheet, slip it into the self-addressed envelope and drop it in the nearest mail box. Allow a few days for your order to be filled, and, without any trouble, extra expense or worry, the postman will deliver your order in perfect condition ready for planting. Remember! We prepay everything and our stock must reach you in first class condition or it still belongs to Wolfe Nursery. If you aren't well pleased, it costs you nothing.

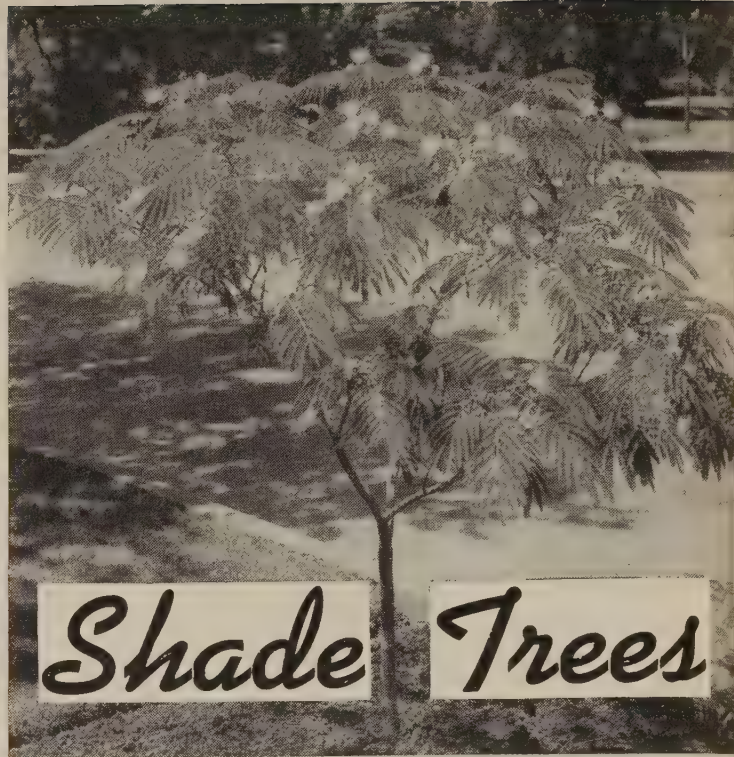

**PROMPT  
DELIVERY**

Graceful, Shady Weeping Willow

## Shade Trees

### No. 12-2 MIMOSA (Weeping Silk Tree)

This unusual shade tree is in such great demand that we have never been able to supply enough trees. The young two-year-old **Mimosa** tree, pictured above, gives you some idea of what a beautiful shade tree it makes. Has an umbrella-like top, with light green, feathery foliage that folds up at night. Fragrant, fluffy pink blossoms literally cover the arching limbs in the summer. Extremely hardy and adapted to all sections. Do not plant in wet spots. Mimosa is labeled RED over GREEN.

### No. 12-3 WEeping WILLOW

One of America's most beautiful shade trees. Our true Babylonian Willow lends a friendly atmosphere to the home and its long, light green limbs reach down to sweep the lawn. A gorgeous shade that invites you to a cool, restful spot during the hot summer evenings. A bank of Weeping Willows makes a lovely background for outdoor living rooms. Plant by rock garden, fish ponds—wherever a graceful shade is needed. Labeled with a RED stripe of paint above a BLUE stripe.

### No. 12-4 REDBUD

Spring's early beauty. It blooms in March and April with a mass of showy dark pink blossoms covering the limbs. Use for a background or to decorate the outdoor living room in the spring. Soon makes a green shade for summer. Don't wait. Labeled RED.

**PRICES:** All Trees—Prepaid: 2-3 ft., 60c; 3-5 ft., 90c; 5-7 ft., \$1.60

### No. 12-1 CHINESE ELM

Most popular fast growing, upright shade tree. It grows into a huge, graceful green tree before you know it. I have one of these lovely Elms shading a west bedroom, that is 35 feet tall, and has a spread of 40 feet. It must have a diameter of two feet at the age of 14 years. Dress up your home and lawn with stately shade. Plant shade trees for a background to your home—never in front, unless your home faces west. Chinese Elm is labeled RED above WHITE on the trunk of the tree.

**4 CHINESE ELM**  
2 to 3 ft., branched  
\$1.50

Offer No. 0-5

Fast Growing Chinese Elm

Redbud—First to Bloom

## Plant **HEDGES** for a friendly evergreen fence

### No. 17-1 AMOOR RIVER PRIVET

Most widely planted hedge in the South. Beautiful for a low or tall sheared evergreen fence. Prune any time, shape it any way you desire, round, square or in figures. Prices, prepaid: 2 ft., branched, 10 for \$1.50; 20 for \$2.50; 50 for \$6.00.

### No. 17-2 JAP LIGUSTRUM

The very best for an evergreen hedge. The big, dark green, showy leaves and compact growth make it easy to trim and shape. Makes a fine informal hedge when not trimmed. Fast growing variety. Prices, prepaid: 1 to 2 ft. size, 10 for \$2.50; 20 for \$4.50; 50 for \$10.00.

**100 ft. Hedge** 50 AMOOR RIVER PRIVET hedge plants—enough to plant a 100-foot hedge. These hedge plants are 15 to 18 inches tall, branched, field-grown. Prepaid for only ..... **\$1.95**

Order Offer No. 0-17

## GLADIOLUS COLLECTION

Twelve large Glad bulbs to lend a tall, colorful touch to your planting. Bouquets for the home, your church and for friends in just a short time. Each of these big bulbs will produce many bulblets that can be planted next season. This collection is made up of **Florist Mixed** varieties and packed to reach you in perfect condition. Our bulbs are treated to prevent disease and rot. Not labeled.

Price, prepaid: \$1.00

Order Offer No. 0-19

# FLOWERING SHRUBS

## No. 16-1 ABELIA

One of the rare evergreen family that blooms from May until frost with a mass of fragrant white flowers that have a very light touch of pink. Each flower is cradled in a bell-shaped cup with six petals of dark purplish red. This array of exquisite blooms has for a background a willowy, dense, glossy green foliage that changes here with the season. Grows 3 or 4 feet high. Price, prepaid: 1 to 2 ft. size, 80c each. Picture page 42.

## ALTHEA (Rose of Sharon)

Beautiful double flowering varieties of Red, Purple, Pink, and White that shower blooms from the middle of July to frost. Big, bright green leaves. These hardy, fast growing Altheas make one of the showiest of mid-summer flowering shrubs. Picture page 42.

No. 16-2 RED	Price: 2 to 3 ft., 60c each
No. 16-3 WHITE	Price: 2 to 3 ft., 60c each
No. 16-4 PINK	Price: 2 to 3 ft., 60c each
No. 16-5 PURPLE	Price: 2 to 3 ft., 60c each

## No. 16-6 BARBERRY, RED-LEAF

There is nothing as strikingly brilliant in hardy shrubbery as our genuine true red strain of Red Leaf Barberry. Its abundance of thick red-maroon leaves fairly glisten and makes a novel contrast to other plants. Grows about 3 or 4 feet tall. Plant for single specimens, corner groups, solid border hedge, etc. Beautiful in front of a light colored home. Price, prepaid: 12 to 15 in., 70c each. Picture page 41.

## No. 16-7 BRIDAL WREATH

Without a doubt, one of the most useful and widely used shrubs in the United States. Blooms in April and May, throwing out long branches that curve and droop to the ground and covered with a mass of pure white flowers that suggest a fountain of snow. May be used singly, massed, or as an informal hedge. Price, prepaid: 2 to 3 ft., 60c each. Picture page 41.

## CRAPE MYRTLE

One of our most beautiful flowering shrubs. We are experimenting with several new promising varieties and will offer them just as soon as possible. The two colors that we list now are much improved over the old strains of Red and Pink. The blossom clusters are much larger and bloom from July to November. Picture page 41.

No. 16-8 RED	Price: 1 to 2 ft. size, 40c each
No. 16-9 PINK	Price: 1 to 2 ft. size, 40c each

## No. 16-10 CYDONIA JAPONICA

An aristocratic early blooming shrub that puts on showers of lovely salmon-red flowers in February or March, before the dark green leaves appear. This mass of red blossoms remains for three or four weeks. An extremely hardy shrub that is used in front of evergreen foundation plantings with striking results. A border of Cydonia is a breath-taking sight. Price, prepaid: 1 to 2 ft. size, 80c each. Picture page 42.

## No. 16-11 GOLDFLAME (Honeysuckle Family)

This new sensational Goldflame Honeysuckle blooms every month in the year and is an unusually heavy blooming variety. The beautiful red and rich golden yellow blooms make a dainty tassel for the shapely bush. Shade or sun. Price, prepaid: 1 to 2 ft. size, 90c each. Picture page 41.

## No. 16-12 FORSYTHIA (Golden Bell)

Rarely do we find a yellow flower that attains such perfection in glowing color as the early blooming flowers that mass in great profusion during April. After that, the graceful swaying limbs support dense green leaves that suggest a friendly welcome to the lawn or shady part of the landscape. Price, prepaid: 2 to 3 ft. size, 70c each. Picture page 42.

## No. 16-13 RED BUSH (Honeysuckle Family)

June to October this beautiful bush is covered with hundreds of light scarlet flowers. An excellent specimen for borders and along walk-ways. It does well in sun or shade. Price, prepaid: 2 to 3 ft. size, 50c each.

## No. 16-14 LILAC, PURPLE

The beautiful old purple Lilac that you and I have known since we were kids. I have the original pure strain that grows tall and is covered with huge blossoms that only Mother Nature can provide. Fragrant and is often used as an informal hedge or as a flowering shrub under high windows. Price, prepaid: 1 to 2 ft. size, 70c each. Picture page 41.

*Easy To Plant Wolfe's Flowering Shrubs*

# PLANT NOW *for Year Round Beauty*

Mix Evergreens and Flowering Shrubs

It's easy to landscape your home with our low cost Evergreens and Flowering Shrubs. Use Evergreens for the foundation planting and Flowering Shrubs for color combination. All Evergreens are special root wrapped and easy to plant. Fast growing, beautiful plantings will greatly add to the value of your property and **Make Your House a Home.**

## No. 16-16 **PINK ALMOND**

This lovely pink blossom shrub with creamy white tassels forming a dainty center of the flower lends an unusual beauty to any landscape. It is adapted to almost any section and is deserving of its popularity as an early blooming specimen. Mix plenty of flowering shrubs of different colors in with a well arranged evergreen foundation planting and your landscape will be a thing of beauty. **Price, prepaid: 1 to 2 ft. size, 70c each.** Picture page 40.

## No. 16-18 **WEIGELA ROSEA**

A graceful arching spread of dainty pink and red blooms. Its foliage and blooms seem to have been arranged into a beautiful bouquet by Mother Nature. This Pink Lady should be planted in part shade. **Price, prepaid: 2 to 3 ft., 50c each.** Picture page 41.

## No. 16-19 **WISTERIA, PURPLE**

A magnificent climber that becomes more beautiful each year. Can be trained to make a tree. Plant on trellis, fence, old trees or as special specimens. Will bloom first year. **Price, prepaid: 1-yr. size, 60c each.** Picture page 42.

Mock Orange

## No. 16-15 **MOCK ORANGE**

This beautiful flowering shrub blooms heaviest in May and June but Orange blossoms can be seen almost any day during the summer. It is Mother Nature's perfume of the garden. **Price, prepaid: 2 to 3 ft. size, 50c each.**

Well Placed Evergreens—Year Round Beauty

Flowering Shrubs, Evergreens and Annuals are the Life of Any Home

New Crimson Tide Pyracantha

> **No. 15-13 CRIMSON TIDE PYRACANTHA**

A new hardy Pyracantha that is a sensational beauty. A dwarf compared to Lalandi and produces a solid mass of larger, rose-red berries all through the winter season. It has a darker, broader, brighter green leaf than most Pyracanthas. Perfect for specimen planting or informal hedge. **Price, prepaid: 1 to 2 ft., 80c each.**

**No. 15-14 LALANDI PYRACANTHA**

Commonly called Firethorn. Tall, upright evergreen covered with bright orange berries during the winter months. Leaves are dark, shiny green. Endures extreme cold. **Price, prepaid: 1 to 2 ft., 70c each.**

**No. 15-12 GARDENIA**

This hardy, sweet scented evergreen needs no description. As shown at left below, this is a heavy blooming variety that will bloom the first year if planted early. Like every item in our catalog, Gardenia Fortunei has proven worthy of a place in your planting. Shade or sun. Cover, if temperature drops below zero. **Price, prepaid: Heavy, well rooted specimens, 1 to 2 ft., 80c each.**

# Wolfe's Climbing Roses

## — Number 1 Bushes

Western Grown—Disease-Free

**No. 6-3 PAUL'S SCARLET CLIMBER.** This popular Rose is the most admired of all climbers. It is a blaze of glory early in the spring and the beautifully shaped scarlet blossoms literally cover the strong, graceful branches. In full bloom, it stops everyone who is passing by. Every flower lover should find a place for this Queen of Climbers. Paul's Scarlet is labeled with a BLUE stripe over a RED. **Delivered price: 75c each.**

**No. 6-2 TALISMAN CLIMBER.** A "SPORT" of the beautiful bush Talisman, but a much heavier blossoming Rose. The two-toned, exquisite, long buds appear all over the gracefully erect stems early and continue all through the blooming season. Talisman is labeled BLUE over ORANGE. **Price, delivered: 75c each.**

**No. 6-1 WHITE AMERICAN BEAUTY.** If you have never seen this unusual white climbing beauty, you have missed a dazzling sight. The profusion of snow-white blooms standing out beyond the dark, glossy green foliage is a tribute to the Rose industry. Picture a Paul's Scarlet and American Beauty planted by the same trellis with the appearance that one climber is producing both white and red blooms. Gorgeous! American Beauty is labeled BLUE over WHITE. **Price, delivered: 75c each.**

# Wolfe's WESTERN GROWN

**NO DIE-BACK, NO LEAF-SPOT, HARD, WELL-**

I wish you could stroll through our Rose fields in the fall before they are dug. Then you could realize what we mean by WESTERN-GROWN ROSES and could understand why we are inclined to do a little bragging—jumbo bushes that are literally covered with giant blooms. Our bushes grow evenly all season and harden as they grow, big, heavy branches that don't freeze or die back. Once you've planted WESTERN-GROWN Roses you'll never use any other. Our Rose bushes, like everything in this catalog, are **GUARANTEED** to please or they cost you nothing.

**No. 1-7 POINSETTIA.** Color Christmas-red. Paint label RED over WHITE.

**No. 4-4 GOLDEN CHARM.** Color golden yellow. Paint label YELLOW over PINK.

**No. 2-5 EDITOR McFARLAND.** Color lovely pink. Paint label PINK over BLUE.

**No. 4-3 GOLDEN RAPTURE.** Color golden yellow. Paint label YELLOW over BLUE.

**No. 1-3 ETOILE DE HOLLANDE.** Color gorgeous red. Paint label RED over GREEN.

# 2 year old — Rose Bushes

Number One Bushes, Like You've Never Seen Before

## Don't Make Rose Growing Difficult

Would you believe that more Roses are killed with too much water than die for lack of water? Yes, as a lady writes, "Mrs. Wolfe, three of my twelve Roses died and I just poured water on them every day all summer". We sent more Roses, but advised her to let Mother Nature do the watering from now on. Keep the bushes pruned and you will get long stem, big beautiful blossoms. Our Roses are labeled in the field with a paint stripe so that varieties can never be mixed. You get what you buy from Wolfe Nursery.

No. 2-3 Betty Uprichard. Color, bright pink; paint label, PINK over WHITE.

No. 5-2 K. A. Viktoria. Color, white; paint label, WHITE over PINK.

No. 4-2 Luxembourg. Color, yellow; paint label, YELLOW over WHITE.

No. 3-2 Talisman. Color, two-tone; paint label, ORANGE over WHITE.

Wolfe Nursery will not be a party to Inflation!

We have held the line on our prices and in many cases reduced them in the face of rising costs. This policy will exist as long as possible.
